

Job Ready?

Are You Ready To Apply Now?

Completed Training & Certifications

Can You See Me?

- Projects Freely Available
- Code Publicly Available to Review Participation (GitHub or GitLab)
- Professional Social Media (No one wants to hire someone with issues).

Recruiters or Direct Apply

- Do not randomly apply to positions
 - Apply to Non-IT Companies also
 - Grooming (Video or In-person interviews require cleanliness and professional grooming standards).
-

How to Get Ready to Apply?

Who Are You?

- Biographical information
- Projects (GitHub)
- Update Contact Information on Web (We recommend a 2nd phone line app dedicated to jobs searching & security).

Are You A Good Fit?

- 1 Page (Preferred) or 2 Page Downloadable Resume (.PDF)
 - Social Media (Update profile & delete negative posts/likes)
 - Custom Website URL (Easy to read website)
-

Test Run - Interview Simulation

Real World Check

- Ask a professional in the field to do a mock interview and hold no punches
- Check your ego at the door. Do NOT expect an interview or response if you have not applied to at least 200 positions.

Feedback and Grow

- Humbly ask a professional to critique your resume, website, or public info
 - If you want \$100k+, you need to be able to solve \$100k+ problems. Be flexible and adaptable
-

Reality Time

Applying for a Job is a Job...

Dedicate 2-8 hrs Daily

- Do NOT send your resume to random recruiters.
- Sign up to a Resume Builder Website (e.g. [EnhanceV](#), [Novoresume](#), etc) to easily edit resume to job posts. Plan 30-60 Days.

Interview and Offer

- Do NOT resign from your current job before your final offer is sent. Confirm any exemptions in writing by HR before resigning.
 - Do NOT accept job offers from 3rd parties on non-company email.
-

Next steps

Task #1

Buddy with at least 1 person or inform a friend or family member who can support and push you to keep going when you want to quit.

Task #2

It will get harder before it gets easier. Just don't give up or give in.

Task #3

Eliminate all distractions (e.g. Netflix, Games, Hulu, etc) but take breaks. Your mind will need to destress to be productive.
